May 2021 Issue # 4

We hope you are enjoying **Pantry News**. A newsletter designed with you in mind! You will have the opportunity to try out new recipes using food items that you receive in your bag.

This month we have included **cooked chicken, blueberries and pistachios**. Canned (or pouched) chicken is a great alternative. It provides the same nutrients as unprocessed chicken without the hassle. It is a good source of protein, vitamins and minerals. Pistachios are bursting with fiber, minerals, and unsaturated fat that can help keep blood sugar, blood pressure, and cholesterol in check.

you will have to adjust your quantity as a cup of dried berries will be about 1/3- 1 ½ cups. Blueberries are a great choice since they're high in antioxidants and other nutrients. Dried blueberries and cherries can be made into jellies, rehydrated, and used in most recipes. They can be mixed into trail mixes and hot cereals like oatmeal or farina, and can also be added to most baked goods.
